ABOUT THE STONEWALL FOUNDATION OF GREATER SACRAMENTO

ADVOCACY

The Stonewall Foundation aims to support the LGBTQIA+ community through outreach, education, and resource development. We never back down from a chance to amplify the voices progressing equity, inclusion, and representation for all.

LEADERSHIP DEVELOPMENT

We are committed to investing in the next generation of leaders dedicated to serving the LGBTQIA+ community. We create pathways for young people and students to grow in their chosen field and use that expertise to give back to community.

SCHOLARSHIPS & DIRECT RELIEF GRANTS

We offer yearly scholarships for students attending Los Rios Community College, and Sac State, as well as direct relief grants that address student's holistic financial needs and wellbeing.

INTERNSHIPS

We see the value of students gaining real-world experience that they can apply in their future careers and lives. We connect students to internships that build confidence and cultivate leadership skills, while improving their networks.

MENTAL HEALTH

We know the classroom is only one component of student life. That is why the Stonewall Foundation is committed to building capacity of local mental health resources for and by community - both by supporting young mental health professionals and increasing availability for critical services that will serve the holistic needs of LGBTQ+ young people.
